

Stop Eastleigh Borough Council's “Eco-Vandalism”

Thursday 20th July 7pm, Venue tbc

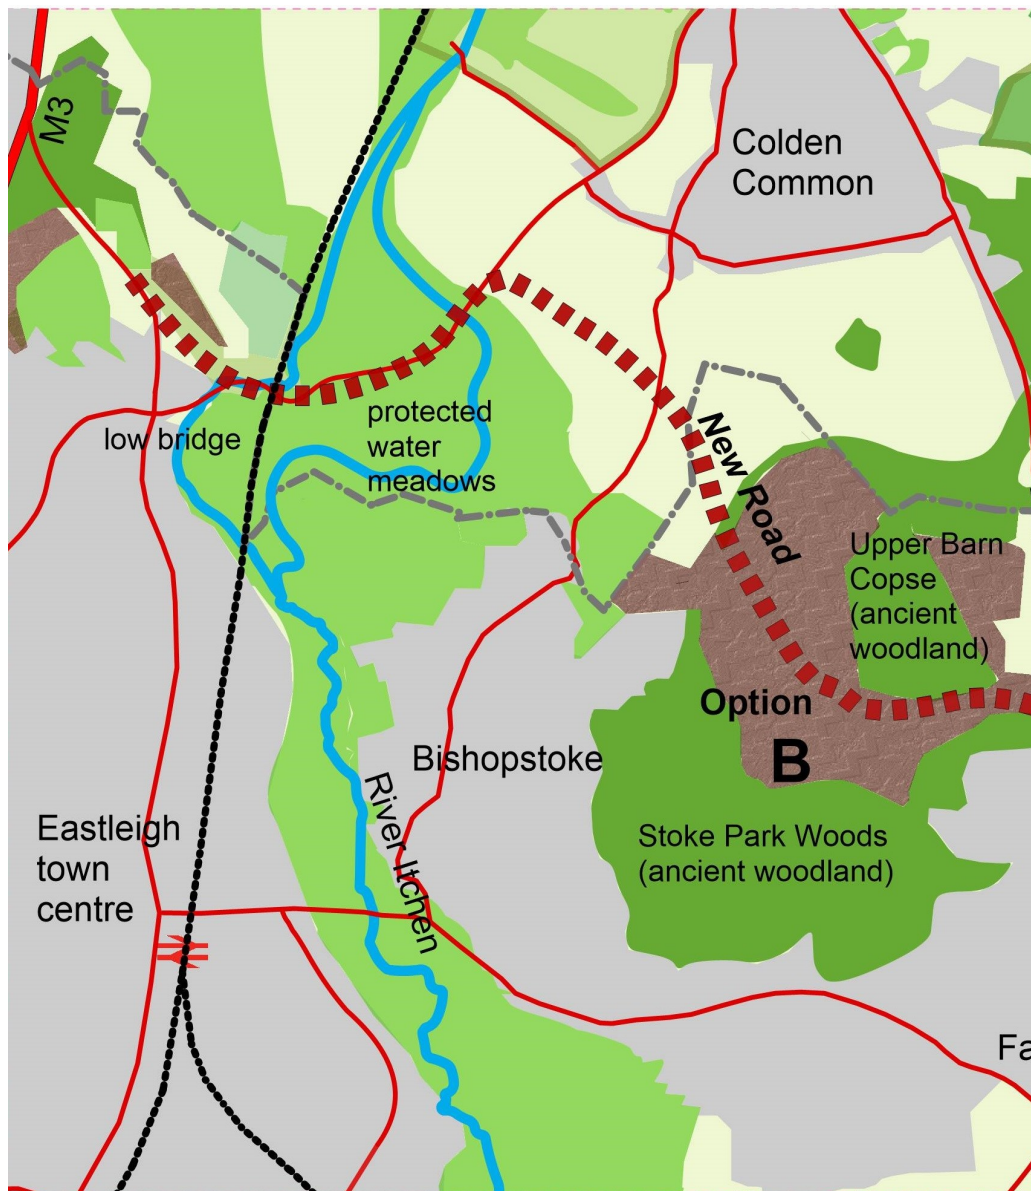

Eastleigh Borough Council's critical meeting for their emerging Local Plan, likely to include major development between Bishopstoke, Fair Oak and Colden Common:

- **Sprawl of 6,000+ houses**, three times the size of Colden Common.
- Destroying high value **countryside**, and threatening the river Itchen.
- Major, untold, permanent **damage** to ancient woodlands.
- **30,000 extra car movements** expected per day, more “rat running” and congestion for our local roads.
- Constructing “Road to nowhere” to M3 J12 via the **current Allbrook railway bridge**, too low for double decker buses and lorries.

Please **save the date** to join ADD to make your voice heard.

Where ADD believe the development will take place

Massive new, unsustainable development

Proposed new “road to nowhere”

"It is desperately important that people get behind the campaign to prevent this piece of **eco-vandalism**. The council is guilty of shabby politics. The plans are bad for wildlife and bad for humans. Of course, we need houses, but there are better places in the borough to build them." Chris Packham, Naturalist

"This Council can and must do better in representing and listening to local residents and balancing the housing requirements versus the best possible sites so that we have a Plan for the next 20 years which will be a success and **provides the homes that people need, in the right places** ." Mims Davies, Eastleigh MP

"...development and a road near the woods could cause damage and that's why **it is absolutely vital** that if that proposal is to be accepted we have to have a guarantee on how the road goes and how the development goes to prevent any damage to the local woods." Mike Thornton, Hampshire County Councillor (Eastleigh News 9th June 2017)

"We would urge those that love woodlands, to do everything they can to convince decision-makers that these **woods need protecting, not polluting**." Oliver Newham, The Woodland Trust

Save the date: Thursday 20th July 7pm
